PERMISSION GROUP	PERMISSION	SELECT CHECKBOX TO GIVE USER
ANALYTICS (4)	**Access to analytics**	Access to the Analytics module. The user can click on the Analytics module but there will be no widgets or reports available to select. Permission must be given separately to make each widget and report available for selection.
	Add Exams sheet to widget export	Ability to export a spreadsheet with exam information from widgets. When the user clicks the widget Export icon, they are presented with the **Export Option** window where they can select Export with Data sheet. The exported spreadsheet contains an extra worksheet detailing the exams that contribute to the widget data.
	Add widgets to dashboard	
	View Custom Reports	Access to the Custom Reports panel in the Reports tab. The panel is not visible without this permission.
ANALYTICS REPORTS (15)	**ACR QCDR Measures Report**	Ability to generate an ACR QCDR Measures Report from the MIPS Reporting panel.
	Communications Turnaround Time	Ability to generate a Communications Turnaround Time report.
	Daily Physician Productivity Summary	Ability to generate a Daily Physician Productivity Summary report.
	Exam Assignment	Ability to generate an Exam Assignment report.
	GRID Report	Ability to generate a GRID Report from the MIPS Reporting panel.
	Manual Rvu History Report	Ability to generate a Manual Rvu History Report.
	Out of Ordering reading	Ability to generate an Out of Ordering reading report.
	Peer Review Analysis	Ability to generate a Peer Review Analysis report.
	Peer Review Export for eRadPeer	Ability to generate a Peer Review Export for eRadPeer report.
	Physician Productivity Report	Ability to generate a Physician Productivity Report.
	Resident Productivity Report	Ability to generate a Resident Productivity Report.
	Tech QA Report	Ability to generate a Tech QA Report.
	Verbose Data Export	Ability to generate a Verbose Data Export report.
	Work Unit Reporting	Ability to generate a Work Unit Reporting report.
	Workload Balancing Report	Ability to generate a Workload Balancing Report.
ANALYTICS WIDGETS (19)	**Auto-next Productivity**	Ability to generate an Auto-next Productivity widget.
	Communications Turnaround	Ability to generate a Communications Turnaround widget.
	Current Practice	Ability to generate a Current Practice widget.
	ED Prelim Discrepancy	Ability to generate a Prelim Discrepancy widget.
	Exam Backlog	Ability to generate an Exam Backlog widget.
	Exam Count	Ability to generate an Exam Count widget.
	Exam Turnaround Time	Ability to generate an Exam Turnaround Time widget.
	Load Balancing Queue Count	Ability to generate a Load Balancing Queue Count widget.
	Non-reading task	Deprecated.
	Peer Review Error Rate by Time of Day	Ability to generate a Peer Review Error Rate by Time of Day widget.
	Peer Review Scorecard	Ability to generate a Peer Review Scorecard by Time of Day widget.
	Practice Productivity	Ability to generate a Practice Productivity widget.
	Radiologist Productivity	Ability to generate a Radiologist Productivity widget.
	Resource Planning	Ability to generate a Resource Planning widget.
	SLA Compliance	Ability to generate an SLA Compliance widget.
	Stacked Exam Count	Ability to generate a Stacked Exam Count widget.
	Stacked Turnaround Time	Ability to generate a Stacked Turnaround Time widget.

	Subspecialty Reading Rate	Ability to generate a Subspecialty Reading Rate widget.
	Unread Exam	Ability to generate an Unread Exam widget.
CRM (12)	**Access to CRM**	View only access to the Contact Management, Portal User Role Management and Portal Field Editor pages in the CRM module. From Portal Exam Lists Management, the user can add/edit/delete Exam Lists.
	Create and Edit Contacts	Ability to add/edit/delete/merge contacts and import/export contacts in the Contact Management page.
	Create and Edit Physician Groups	Ability to add/edit/delete ordering physician groups. From the **Edit Contact** window, the user can click an add icon beside groups. **Note**: The user must have the **Edit Contacts** permission to access the **Edit Contact** window.
	Edit Portal Forms Management	
	Edit Portal Settings	Ability to edit portal settings for a contact in the Contact Management page.
	Edit Portal User Roles	Ability to add/edit portal user roles from the Portal User Role Management page.
	Edit Site	Ability to edit site information and import/export site details and site departments in the Contact Management page.
	Portal forms field editor edit	Ability to add groups and fields to forms in the Portal Field Editor page.
	Portal forms field editor view	
	View Contacts	
	View Portal Forms Management	
	View Portal User Roles	
COMMON (5)	**Access to MFA login**	Multifactor Authentication challenge at login. **Note**: Multifactor Authentication for Login must first be enabled for the system.
	Bypass enterprise authentication	Ability to use local/LDAP authentication when enterprise authentication has been enabled. **Note**: Permission only applicable to customers with an enterprise authentication integration enabled.
	Change exam status	Ability to change the status of exams. The user can select Change Status from the right-click/Actions menus to open the **Change Exam Status** window.
	Concurrent user logins (multiple logins)	Ability to login on different workstations at the same time. The user can login on a second workstation without being logged out on the first workstation.
	View button to set away and lock system	Lock System (Away) button for selection.
DASHBOARD (13)	**Access to Dashboard**	Access to the Dashboard module. The user can click on the Dashboard module but there will be no tabs available to select. Permission must be given separately to make each tab visible.
	Actions on DICOM Routing Page	Ability to edit DICOM routing information. It is not necessary to also give the user the **View DICOM Routing** permission.
	Actions on Extender Logs Page	Ability to view and delete extender logs. It is not necessary to also give the user the **View uploaded Extender logs** permission.
	Actions on HL7 Sender Page	Ability to resend HL7 messages. It is not necessary to also give the user the **View HL7 Sender** permission.
	Actions on Linq Workflow Page	Ability to activate/deactivate Linq connections. It is not necessary to also give the user the **View Linq Workflow** permission.
	Actions on User Monitoring Page	Ability to Log off/Pause exam assignment for users. It is not necessary to also give the user the **View User Monitor** permission.
	View DICOM Routing	View only access to the DICOM Routing tab.

	View HL7 Sender	View only access to the HL7 Sender tab.
	View Linq Workflow	View only access to the Linq Workflow tab.
	View Services	Access to the Service and Service Logs tabs. The user can right-click and perform actions from the PeerReviewAssignment service in the Service tab.
	View uploaded Extender logs	View only access to the Extender Logs tab.
	View User Monitor	View only access to the User Monitoring tab.
	View Worklist Performance	Access to the Worklist Performance tab.
ERROR LOG (2)	**Admin error logging with backtrace**	Access to log.php page including backtrace. It is not necessary to also give the user the **Show only error log info** permission.
	Show only error log info	Access to log.php page.
MANAGEMENT (38)	**Access Log Analyzer**	Access to the Log Analyzer page.
	Access Peer Review Management	Access to the Peer Review Management page.
	Access Procedure Management	Access to the Procedure Management page.
	Access Registry Configuration	Access to the Registry Configuration page.
	Access to admin help pages	Access to administrative level help pages. When the user clicks Help, they will be directed to the Clario Administration Modules Online Help in place of the Clario SmartWorklist Online Help.
	Access to management	Access to the Management module. The user can click on the Management module but there will be no pages available to select. Permission must be given separately to make each page visible.
	Access to Navigator Management	Access to the AI Navigator page.
	Access to Send HL7 message	Ability to send HL7 message in Assignment Rule Management. **Note**: Additional back end configuration is required.
	Admin Access to Credentialing	Ability to edit user credentialing in the User Credentialing page. It is not necessary to also give the user the **View Access to Credentialing** permission.
	Change exam priority	Deprecated.
	Create new exam orders	
	Create or edit a user	Ability to add/edit local users in the User Management page. It is not necessary to also give the user the **View user** permission. **Note**: This permission applies to adding local users and not adding users via an LDAP integration.
	Create or edit user roles	Ability to add/edit/delete user roles in the User Role Management page. It is not necessary to also give the user the **View user roles** permission.
	Delete exam information	
	Delete user from User Management	Ability to delete users in the User Management page. **Note**: This permission applies to deleting local users and not users added via an LDAP integration.
	Edit all Exam related data	Ability to edit exam data. The user can click the exam name in patient view and edit fields in the Information panel of the **Exam History** window. It is not necessary to also give the user the **Edit some exam related data** permission. **Note**: Additional back end configuration is required.
	Edit all Patient related data	Ability to edit patient data. The user can click the patient name in patient view and edit fields in the Information panel of the **Patient History** window. It is not necessary to also give the user the **Edit some patient related data** permission. **Note**: Additional back end configuration is required.

	Edit Assign Rules	Ability to add/edit assignment rules in the Assign Rule Management page. It is not necessary to also give the user the **View Assign Rule Management** permission.
	Edit exam information	
	Edit Group Management page	Ability to add/edit groups in the Group Management page. It is not necessary to also give the user the **View Group Management** permission.
	Edit Notification Rules	Ability to add/edit notification rules in the Notification Management page. It is not necessary to also give the user the **View Notification Management** permission.
	Edit SLA Rules	Ability to add/edit SLA rules in the SLA Management page. It is not necessary to also give the user the **View SLA Management** permission.
	Edit some exam related data	Ability to edit the following exam data fields: Status, Modality, Reason, Begin, PReport, Site Accession, Radiologist, Attending. The user can click the exam name in patient view and edit fields in the Information panel of the **Exam History** window. **Note**: Additional back end configuration is required.
	Edit some patient related data	Ability to edit the following patient data fields: Master Patient ID, MRN, Last Name, Gender, Has Patient Note. The user can click the patient name in patient view and edit fields in the Information panel of the **Patient History** window. **Note**: Additional back end configuration is required.

	Edit/add/import diagnostic codes	Ability to import diagnostic code in Diagnostic Code tab of Procedure Management. User is able to add/edit diagnostic codes with the **Access Procedure Management** permission.
	Manage System Configuration	Access to the Configuration page.
	Match patients	Ability to confirm or reject Patient Matches and perform Manual Matches.
	Merge patients	Ability to perform Manual Merges. **Caution**: A merge will overwrite patient data.
	Receive notification of upcoming SSL Certificate expiry	A notification upon every login when the SSL certificate will expire soon (a default of 30 days).
	View Access to Credentialing	View only access to the User Credentialing page.
	View Assign Rule Management	View only access to the Assign Rule Management page.
	View exam information	
	View Group Management	View only access to the Group Management page.
	View Notification Management	View only access to the Notification Management page.
	View SLA Management	View only access to the SLA Management page.
	View user roles	View only access to the User Role Management page.
	View users	View only access to the User Management page. The user can Clone users and edit Contact Info.
MESSAGE (6)	**Ability to Delete Private Groups**	Ability to delete private groups. The user can right-click on the group name and select Delete.
	Ability to Delete Public Groups	Ability to delete public groups. The user can right-click on the group name and select Delete.
	Access to Messaging	Access to the Messaging module.
	Leave Private Group	Ability to leave private groups. The user can right-click on the group name and select Leave.
	Leave Public Group	Ability to leave public groups. The user can right-click on the group name and select Leave.
	Messaging Admin	Ability to create public groups and visibility of all private groups.
MULTI-SYSTEM (2)	**System Administrator**	Ability to manage users using Linq worklist sharing. The Multi System panel in User Management is not visible without this permission.

	System User	Access to Linq worklist sharing. **Note**: The user must have this permission in both the native and the shared Clario system.
NOTES (28)	**Access to PRT Notes in InteleViewer**	
	Administrator Communication Notes	Ability to delete Communication Notes.
	Administrator ED Prelim Notes	Ability to delete ED Prelim Notes.
	Administrator Exam Notes	Ability to delete Exam Notes.
	Administrator Follow-up Notes	Ability to delete Follow-up Notes.
	Administrator Patient Notes	Ability to delete Patient Notes.
	Administrator Peer Review Notes	
	Administrator Upload file	Ability to delete Upload Files.
	Create Communication notes	Ability to create Communication Notes. It is not necessary to also give the user the **View Communication notes** permission.
	Create ED Prelim notes	Ability to create ED Prelim Notes. It is not necessary to also give the user the **View ED Prelim notes** permission.
	Create Exam notes	Ability to create Exam Notes. It is not necessary to also give the user the **View Exam notes** permission.
	Create Follow-up notes	Ability to create Follow-up Notes. It is not necessary to also give the user the **View Follow-up notes** permission.
	Create Patient notes	Ability to create Patient Notes. It is not necessary to also give the user the **View Patient notes** permission.
	Create Peer Review notes	Ability to create Peer Review Notes.
	Create Upload file	Ability to create Upload Files. It is not necessary to also give the user the **View Upload file** permission.
	ED Prelim notes Acknowledge	Ability to acknowledge a discrepancy on an ED Prelim note and change the note status to complete.
	ED Prelim notes Agree	Ability to agree with an ED Prelim note and change the note status to complete.
	ED Prelim notes Comment Discrepancy	Ability to comment on an ED Prelim note in discrepancy status.
	ED Prelim notes Comment Pending	Ability to comment on an ED Prelim note in pending status.
	ED Prelim notes Major Discrepancy	Ability to flag a major discrepancy on an ED Prelim note and change the note status to discrepancy.
	ED Prelim notes Minor Discrepancy	Ability to flag a minor discrepancy on an ED Prelim note and change the note status to discrepancy.
	View Communication notes	Ability to view Communication Notes.
	View ED Prelim notes	Ability to view ED Prelim Notes.
	View Exam notes	Ability to view Exam Notes.
	View Follow-up notes	Ability to view Follow-up Notes.
	View Patient notes	Ability to view Patient Notes.
	View Peer Review notes	Ability to view Peer Review Notes and Peer Review worklists and search for Peer Review Notes. **Note**: The user must have the **Limited Peer Review Admin** or **Peer review administrator** permission for visibility of Peer Review Notes submitted by other users.
	View Upload file	Ability to view Upload Files.

PATIENT VIEW (5)	**Associate/disassociate exams to diagnostic codes**	
	Final report upload admin	Ability to manually upload reports and delete manually uploaded reports. The user can select the Manually Upload Report icon in the report panel. It is not necessary to also give the user the **Final report upload user** permission.
	Final report upload only	Ability to manually upload reports. The user can select the Manually Upload Report icon in the report panel.
	Final report upload user	Ability to manually upload reports and delete own manually uploaded reports. The user can select the Manually Upload Report icon in the report panel. It is not necessary to also give the user the **Final report upload only** permission.
	View/Export detailed STAMP from exam history	Visibility of the Detail panel of the **Exam History** window and ability to download HL7 messages from the **Exam History** window. The user can select the Show All Columns checkbox.
PEER REVIEW (4)	**Delete Peer Review note**	Ability to delete Peer Review notes.
	Limited Peer Review Admin	Ability to view Peer Review Notes without user information. The user will be blinded to peer reviews. **Note**: The user must have the **View Peer Review notes** permission to access Peer Review worklists and search for Peer Review notes.
	Peer Review user	Ability to perform peer reviews. The user will be assigned peer reviews if configured and will be blinded to peer reviews. **Note**: The user must have the **View Peer Review notes** permission to access Peer Review worklists.
	Peer review administrator	Ability to arbitrate peer reviews and view Peer Review notes with user information. The user will not be blinded to peer reviews. **Note**: The user must have the **View Peer Review notes** permission to access Peer Review worklists and search for Peer Review notes.
PREFERENCES (3)	**Prompt for shift**	A prompt upon login to select shift. When the Smart Worklist module is launched, the user will be presented with a **Select Current Shift** window. If this permission is selected in addition to the **Required Reading Location** permission, the user will be presented with a **Select Current Shift and Location** window.
